Mentored throughout by senior management you will gain hands on experience in running the business with the chance to become more specialised in a particular area. If you have a can-do attitude, a methodical approach, a passion to work with others and grow yourself then apply today and add a great experience to your CV.

Tasks

- Stock management and global order processing.
- Supporting the develop of our advanced inventory management systems.
- Using key business processes and data to monitor and measure materials.
- Collate and review data such as actual sales vs the forecast plan.
- Support the Global Business Analyst to improve processes and reporting rhythms.
- Align departments through consistent reporting which measures the efficiency of systems and procedures.

Personal Skills

Desired:

- Working towards a degree in Business Management with a focus on operations, supply chain or other relevant subject matter.
- Have a natural interest in technical matters with an interest in engineering.
- A clear thinker with strong analytical skills and the ability to think strategically possessing the ability to see both the short- and long-term picture.
- Diligent and methodic with excellent written and verbal communication skills.

The Host Company

Established in 1998, this host has developed into a global force designing and manufacturing attachments for construction and farm vehicles such as earth drills and cement bowls. In 2005, after surveying the market carefully, they released a new range of innovative products designed to provide unrivalled reliability and cost-effective operation. Now with six manufacturing bases worldwide, they are satisfying the demand for high-quality products in over seventy countries on all seven continents.
